

April 29, 1975

state of Nebraska the right and the privilege of obtaining the rules and regulations of the administrative departments of government. This morning I received in the mail a bi-annual report of the highway department and the Nebraska State Highway Patrol. I would like to know what it costs. This is tremendous. This is probably one of the finest pieces of material that I have gotten a hold of and at this time I would like to ask if the budget committee, someone on it could tell me whether or not our fiscal staff would be able to tell us what this little report costs and possibly the other reports that they put out. Is that possible Senator Marvel?

SENATOR MARVEL: What?

SENATOR DUIS: Senator Clark, Senator Simpson, or Senator Marsh, whoever may want to.

SPEAKER: Well, lets start with Senator Clark.

SENATOR CLARK: Which report do you have?

SENATOR DUIS: Oh it is the most beautiful little thing done up in with marvelous literature and pictures and a...

SENATOR CLARK: You mean the one with the Governors picture all through it?

SENATOR DUIS: Well I'm not talking about that particularly.

SENATOR CLARK: Well I really don't have any idea what it costs and I don't think that it would have a bearing on it because as long as his picture is on there I don't think that he will care.

SENATOR DUIS: Well what I am trying to ask is whether or not your fiscal staff would be able to find out what this publication cost?

SENATOR CLARK: Well I think that they would have to go out and find out from them just like we would Senator Duis.

SENATOR DUIS: Would it be appropriate for you or for me to ask them.

SENATOR CLARK: I think that it would be better for you to ask them. You would probably get the same type of an answer.

SENATOR DUIS: Thank you very much and I will do so this afternoon. Thank you, but I am concerned about the cost of this.

SPEAKER: LB204, Senator DeCamp.

CLERK: Read LB204.

SENATOR DE CAMP: Mr. President, I move that the bill be advanced.
